NOTIFICATIONS BY GOVERNMENT

LABOUR AND EMPLOYMENT DEPARTMENT

Draft Amendments to the Tamil Nadu Factories Rules.

[G.O. Ms. No. 132, Labour and Employment (M2), 21st July 2010, Aadi 5, Thiruvalluvar Aandu 2041.]

No. SRO A-35/2010.—The following draft of amendments to the Tamil Nadu Factories Rules, 1950 which it is proposed to make in exercise of the powers conferred by Section 112 of the Factories Act, 1948 (Central Act LXIII of 1948), is hereby published for the information of all persons likely to be affected, there by, as required by Section 115 of the said Act.

2. Notice is hereby given that the draft amendments will be taken into consideration on or after the expiry of forty-five days from the date of publication of this Notification in the *Tamil Nadu Government Gazette* and that, any objection or suggestion which may be received from any person with respect thereto before the expiry of the aforesaid period will be considered by the Government of Tamil Nadu. Objection or suggestion, if any, should be addressed to the Secretary to Government, Labour and Employment Department, Secretariat, Chennai-600 009 through the Chief Inspector of Factories, Chennai-600 005 in duplicate;

DRAFT AMENDMENTS.

In the said Rules,-

- (1) in rule 61,—
 - (a) in sub-rule (3), for the marginal heading, the following marginal heading shall be substituted, namely:—
 "Protection against lightning";
 - (b) in sub-rule (10), for clauses (b) and (c), the following clauses shall be substituted, namely:-
- "(b) The types of first-aid fire fighting equipment to be provided shall be determined by considering the different types of fire risks which are classified as follows:—
- (i) Class 'A' Fire-Fire involving solid combustible materials of organic nature such as wood, paper, etc., where the cooling effect of water is essential for extinction of fire.

1. LIGHT HAZARD OCCUPANCIES

- 1. Abrasive Manufacturing Premises
- 2. Aerated Water Factories
- 3. Agarbatti Manufacturing
- 4. Aluminium, Zinc and Copper Factories
- 5. Analytical and/or Quality Control Laboratories
- 6. Asbestos Steam Packing and Lagging Manufacturers
- 7. Battery Charging/Service Station
- 8. Battery Manufacturing
- 9. Breweries
- 10. Brick Works
- 11. Canning Factories
- 12. Cardamom Factories
- 13. Cement Factories and/or Asbestos Products Manufacturing
- 14. Ceramic Factories and Crockery and Stoneware Pipe Manufacturing
- 15. Cinema Theatres (Including Preview Theatres)
- 16. Clay Works
- 17. Clock and Watch Manufacturing
- 18. Clubs
- 19. Coffee Curing and Roasting Premises
- 20. Computer installations (Main Frame)

- 21. Condensed Milk Factories, Milk Pasteurising Plant and Dairies
- 22. Confectionery Manufacturing
- 23. Dwellings
- 24. Educational and Research Institutes
- 25. Electric Generating Houses (Hydel)
- 26. Electric Lamps (Incandescent and Fluorescent) and TV Picture Tube Manufacturing
- 27. Electric Sub-Station/Distribution Station
- 28. Electro Plating Works
- 29. Electronic and/or Computer Equipments Assemble and Manufactures
- 30 Empty containers Storage Yard
- 31. Engineering Workshops
- 32. Fruits and Vegetables Dehydrating/Drying Factories
- 33. Fruit Products and Condiment Factories
- 34. Glass and Glass Fibre Manufacturing
- 35. Godowns and Warehouses Storing non-combustible Goods
- 36. Green houses
- 37. Gold Thread Factories/Gilding Factories
- 38. Gum and/or Glue and Gelatine Manufacturing
- 39. Hospitals including X-ray and other Diagnostic Clinics
- 40. Ice Candy and Ice-cream Manufacturing
- 41. Ice Factories
- 42. Ink (excluding Printing Ink) Factories
- 43. Laundries
- 44. Libraries
- 45. Mica Products Manufacturing
- 46. Office Premises
- 47. Places of worship
- 48. Pottery Works
- 49. Poultry Farms
- 50. Residential Hotels, Cafes and Restaurants
- 51. Salt Crushing Factories and Refineries
- 52. Stables
- 53. Steel Plants (other than Gas Based)
- 54. Sugar Candy Manufacturing
- 55. Sugar Factories and Refineries
- 56. Tea Blending and Tea Packing Factories
- 57. Umbrella Assembling Factories
- 58. Vermicelli Factories
- 59. Water Treatment/Water Filtration Plants and Water Pumps House.

2. ORDINARY HAZARD OCCUPANCIES:

- 1. Airport and other Transportation Terminal Building
- 2. Areca nut slicing and/or Betel nut Factories
- 3. Atta and Cereal Grinding
- 4. Bakeries
- 5. Beedi Factories
- 6. Biscuit Factories
- 7. Bobbin Factories
- 8. Book binders, Envelopes and Paper bag Manufacturers
- 9. Bulk Storage
- 10. Cable Manufacturing
- 11. Camphor Boiling
- 12. Candle Works
- 13. Carbon Paper/Typewriter Ribbon Manufacturers
- 14. Cardboard Box Manufacturing
- 15. Carpenters, Wood wool and Furniture Manufacturers
- 16. Carpet and Drugget Factories
- 17. Cashew nut Factories
- 18. Chemical Manufacturing
- 19. Cigar and Cigarette Factories
- 20. Coffee grinding premises
- 21. Coir Factories
- 22. Coir Carpets, Rugs and Tobacco, Hides and Skin Presses
- 23. Cold Storage Premises
- 24. Cork Products Manufacturing
- 25. Dry Cleaning, Dyeing, Laundries
- 26. Electirc Generating Stations (other than Hydel)
- 27. Enamelware Factories
- 28. Filter and Wax Paper Manufacturing
- 29. Flour Mills
- 30. Garages
- 31. Garment Makers
- 32. Ghee Factories (other than Vegetable)
- 33. Godowns and Warehouses (others)
- 34. Grain and/or Seeds Disintegrating and/or Crushing Factories
- 35. Grease Manufacturing
- 36. Hat and Topee Factories
- 37. Hosiery, Lace, Embroidery and Thread Factories

- 38. Incandescent Gas Mantle Manufacturers
- 39. Industrial Gas manufacturing including halogenated hydrocarbon gases
- 40. Linoleum Factories.
- 41. Man-made Yard/Fibre Manufacturing (Except Acrylic)
- 42. Manure and Fertilizer Works (Blending, Mixing and granulating only)
- 43. Mercantile Occupancies (Departmental Stores, Shopping Complexes or Malls)
- 44. Mineral Oil Blending and Processing
- 45. Museums
- 46. Oil and Leather Cloth Factories
- 47. Oil Terminals/Depots other than those categorised under high hazard A.
- 48. Oxygen Plants
- 49. Plywood Manufacturing/Wood Veneering Factories
- 50. Paper and Cardboard Mills
- 51. Piers, wharves, dockyards
- 52. Plastic Goods Manufacturing
- 53. Printing Press Premises
- 54. Pulverising and Crushing Mills
- 55. Rice Mills
- 56. Rope Works
- 57. Rubber Goods Manufacturing
- 58. Rubber Tyres and Tubes Manufacturing
- 59. Shellac Factories
- 60. Shopping Complexes (underground)
- 61. Silk Filatures and cocoon stores
- 62. Spray painting
- 63. Soaps and Glycerine Factories
- 64. Starch Factories
- 65. Steel Plants (Gas Based)
- 66. Tanneries/Leather Goods Manufacturers
- 67. Tank farms other than those categorised under high hazard A
- 68. Textile Mills
- 69. Tea Factories
- 70. Telephone Exchanges
- 71. Theatres and Auditoriums
- 72. Tobacco (Chewing) and pan-masala Making
- 73. Tobacco Grinding and Crushing
- 74. Tobacco Re-drying Factories
- 75. Woollen Mills

3. HIGH HAZARD OCCUPANCIES:

Sub-category A:

- 1. Aircraft Hangers
- 2. Aluminium/Magnesium Powder Plants
- 3. Bituminised Paper and/or Hessian Cloth Manufacturing including Tar Felt Manufacturing
- Cotton Waste Factories
- 5. Coal and/or Coke and/or Charcoal Ball Briquettes Manufacturing
- 6. Celluloid Goods Manufacturing
- 7. Cigarette Filter Manufacturing
- 8. Cinema Films and T.V. Production Studios
- 9. Collieries
- 10. Cotton Seed Cleaning or De-linting Factories
- 11. Distilleries
- 12. Duplicating and Stencil Paper Manufacturing
- 13. Fire-Works Manufacturing
- 14. Foamed Plastics Manufacturing and /or Converting Plants
- Grass Hay, Fodder and Bhoosa (chaff)
- 16. Pressing Factories
- 17. Jute Mills and Jute Presses
- 18. LPG Bottling Plants (Mini)*

(*Bottling plants having total inventory not exceeding 100 Metric Ton of Liquefied Petroleum Gas and also bottling a total quantity of not exceeding 20 Metric Ton of LPG per shift of 8 hours).

- 19. Match Factories
- 20. Man Made Fibres (Acrylic fibres/yarn making)
- 21. Mattress and Pillow Making
- 22. Metal or Tin Printers (where more than 50% of floor area is occupied as Engineering Workshop, this may be taken as Ordinary Hazard Risk)
- 23 Oil Mills
- 24. Oil Extraction Plants (other than those forming part of ghee factories and oil refining factories)
- 25. Oil Terminals/Depots handling flammable liquids having flash point of 32°C and below
- 26. Paints and Varnish Factories
- 27. Printing Ink Manufacturing
- 28. Saw Mills
- 29. Sponge Iron Plants
- 30. Surgical Cotton Manufacturers
- 31. Tank Farms storing flammable liquids having flash point of 32°C and below
- 32. Tarpaulin and Canvas Proofing Factories
- 33. Turpentine and Rosin Distilleries
- 34. Tyre Retreading and Resoling Factories

Sub-category B:

- 1. Amonia and urea Synthesis Plants
- 2. CNG Compressing and Bottling Plant
- 3. Explosive Factories
- 4. LPG Bottling Plants (other than Mini)
- 5. Petrochemical Plants
- 6. Petroleum Refineries
 - (ii) Class 'B' Fire.—Fire involving flammable liquids or liqufiable solids or the like where a blanketing effect is essential.
 - (iii) Class 'C' Fire.—Fire involving flammable gases under pressure including liquefied gases, where it is necessary to inhibit the burning gas at fast rate with an inert gas, powder or vaporizing liquid for extinguishment.
 - (iv) Class 'D' Fire.—Fire involving combustible metals, such as magnesium, aluminium, zinc, sodium, potassium, etc., when the burning metal are reactive to water and water containing agents and in certain cases carbon di oxide, halogenated hydrocarbons and ordinary dry powders. This type of fire requires special media and techniques to extinguish.
- (c) The number and types of first-aid fire fighting equipment to be provided shall be as per Bureau of Indian Standards recommendations for installation of fire extinguishers given in Annexure B of IS 2190:1992. The types are detailed in Schedule-I.":
 - (c) in sub-rule (11),—
 - (i) for clause (a), the following clause shall be substituted, namely:-
- "(a) In every factory, adequate provision for water supply for fire-fighting shall be made. Water for the hydrant service shall be stored in an easily accessible surface or underground lined reservoir or above ground tanks of steel, concrete or masonry. The effective capacity of the reservoir above the lower water level (a point at least three times the diameter of the suction pipe above the draw-off points) or above the top of the pump casing (in case of flooded suction) if the same is higher than the low water level, for various classes of occupanicies and size of hydrant installations shall be as indicated in the Table below:—

THE TABLE

Newton of Birls - Compains of Otatio Otamon Freshop by Basement for University Company

SI. No. (1)	Nautre of Risk (2)	Capacity of Static Storage Exclusively Reserved for Hydrant Service (3)
1.	Light Hazard	Not less than 1 hours aggregate pumping capacity with a minimum of 1,35,000 litres.
2.	Ordinary Hazard	Not less than 2 hours aggregate pumping capacity.
3.	High Hazard A	Not less than 3 hours aggregate pumping capacity.
4.	High Hazard B	Not less than 4 hours aggregate pumping capacity.

Note: 1.—The capacity of the reservoir for ordinary and high hazard class occupancies may be reduced by the quantum of inflow (of one hour in case of ordinary hazard, 90 minutes in case of high hazard A and two hours in case of high hazard B occupancies), from a reliable source (other than town's main) having prior approval of the committee, but in no case shall the reservoir capacity be less than 70% of that mentioned above.

Note: 2.—In case of light hazard class occupancies, the minimum capacity of the reservoir shall be increased to 2,25,000 litres, if the highest floor of the building is more than 15 m. above the surrounding ground level.";

- (ii) for clause (e), the following clause shall be substituted, namely:-
- "(e) The hydrant system should be distributed round the factory with due regard to potential fire risks at the factory. Where piped supply is provided, the size of the main shall not be less than 15 cm. diameter and it shall be capable of supplying a minimum of 4,500 litres per minute at a pressure of not less than 7 kilograms per square cm. in case of light hazard occupanicies. In case of high hazard area, the water pressure should be 10 kg. per square centimeter. A certificate of completion from the installing engineer stating the pressure test to which the installation has been subjected and giving the dates from which it is in complete working order should also be submitted at the office of the Inspector of Factories.";

- (d) after sub-rule (14), the following sub-rule shall be added, namely:-
- "(15) Plan of fire-fighting installations showing the entire compound, whole buildings therein, within their doors and window openings, boundary walls, etc. should be submitted to the office of the Inspector of Factories, the State Fire Director and the local authority.";
 - (e) for Schedule I, the following Schedule shall be substituted, namely:—

SCHEDULE-I

First-aid Fire Fighting Equipments

(1) The different type of fire and first-aid fire-fighting equipment suitable for use on them are as under:

Class of fire	Suitable type of Appliance
(1)	(2)
Class 'A' Fires	Water expelling type extinguishers
Class 'B' Fires	Foam, dry powder, vaporizing liquid and carbon di oxide extinguishers
Class 'C' Fires	Dry powder, vaporizing liquid and carbon di oxide extinguishers

- Note.—(1) Where energized electrical equipment is involved in a fire, non-conductivity of the extinguishing media is of utmost importance, and only extinguishers expelling dry powder, carbon di oxide (without metal horn) or vaporizing liquids should be used. Once the electrical equipment is de-energized, extinguishers suitable for the class of fire risk involved can be used safely.
- (2) Where cleanliness and contamination of sensitive electrical equipment are of importance or where the sensitivity of the control instruments or electronic equipment and systems are likely to be affected, only carbon die oxide or vaporizing liquid type extinguishers should be used.
- (3) For fires involving polar solvents and other water miscible flamable liquids, dry powder type or mechanical foam extinguisher with alcohol-resistant foam should be used.";
 - (2) in rule 61-K, for sub-rule (4), the following sub-rule shall be substituted, namely:-
- "(4) The record of examination or re-examination carried out by the concerned opthalmologist shall be produced on demand.";
 - (3) in rule 77, in sub-rule (4), for clause (a) and the proviso thereunder, the following clause shall be substituted, namely:—
 - "(a) the manager shall maintain the details of compensatory holidays in the Muster Roll in Form No. 25.";
 - (4) in rule 80, for the marginal heading, the following marginal heading shall be substituted, namely:— "Register of Adult Workers and Young Persons";
 - (5) in rule 86,-
 - (a) for the marginal heading, the following marginal heading shall be substituted, namely:-
 - "Register of Adult Workers and Young Persons;
- (b) for the expresson "maintain a register in Form No. 14", the expression "record the particulars of such young persons in the register of adult workers and young persons in Form No. 12" shall be substituted;
 - (c) for the expression "column (3) of Form No. 14", the expression "column (3) of Form No. 12" shall be substituted;
- (6) in rule 95, in Schedule XX, in para 19, in sub-para (3), for the expression "Form 27-A", the expression "Form No. 27" shall be substituted:
 - (7) in rule 96, in sub-rule (3), for the expression "Form No. 18-A", the expression "Form No. 18" shall be substituted;
 - (8) for rule 100, the following rule shall be substituted, namely:—
- *"10. Returns.*—The manager of every factory shall furnish to the Inspector an annual return for every calendar year, in duplicate in Form No. 22 so as to reach the inspector on or before the 31st January of the following year.";
 - (9) rule 104 shall be omitted;
 - (10) Form No. 9 shall be omitted;

(11) for Form No. 12, the following Form shall be substituted, namely:—

"FORM No. 12

(Prescribed under rule 80 and rule 86)

Register of adult workers and young persons.

Name and address of the factory:				Year:			Registration No.:			
Serial number	Name and residential address of the worker	Date of birth	Father's Name	Date of first employment	Nature of work in which employed	Letter of group as in Form No. 11	Number of relay, if working in shifts	Serial number of certificate of fitness issued by certifying Surgeon and its date	Token number with reference to certificate of fitness, Number and date of certificate, if an adolescent.	Remarks
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)";

- (12) Form No. 14 shall be omitted;
- (13) For Form Nos. 18 and 18-A, the following Form shall be substituted, namely:—

"FORM No. 18

(Prescribed under rule 96).

	(Frescribed dilder rate)	30).
	REPORT OF ACCIDENT INCLUDING DANG	EROUS OCCURRENCE
En	nployees State Insurance Corporation Employer's Code number:	
Re	gistration Number	
		Licence Number:
En Sta	me and Address of Local aployees Local Employees ate Insurance Corporation fice	National Industrial Classification Code No.:
		(as given in the licence)
1.	Name and address of factory:	,
2.	Name, address and telephone number of the occupier:	
3.	Nature of industry (as given in the licence):	
4.	Date, shift and hour of accident or dangerous occurrence:	
5.	Department/section and exact place where the accident or dangerous occurrence took place:	
6.	(a) Description of the accident or dangerous occurrence (indicating type) that took place:	
	(b) Whether it involves explosion; fire; emission of toxic substance(s); substance(s) emitted:	

7. Total number of persons injured or killed:

pursuance of arrangements made with the employer:

Number of pe	ersons injured	Number of persons killed		
Inside the factory	Outside the factory	Inside the factory	Outside the factory	

Note.—If any person outside the factory premises is injured or killed in the accident or dangerous occurrence, please furnish the information to the extent available.

	011110	ation to the extent available.				
8.	Par	ticulars of persons injured/killed				
	(a)	Name	:			
	(b)	Age	:
